Subject: RE: Ley Creek question

My vague recollection is that at some point it was determined (not by me) that the property owners on each side own the creek up to the middle. I'll have to go through some records to find out for sure and won't be able to do that until after next week- it's the end of the FY.

On another note... we are exploring the option of local disposal of dredge spoils in the FS for LLC. Our contractor has identified two properties (salina landfill and cooper's north landfill) that may be worth looking into for local disposal and the cost savings are pretty significant. I'm arranging a meeting with Salina, Cooper, DEC, and EPA to discuss our options and Cooper has requested that I invite RACER to join the conversation in case this is also something RACER is considering. We are looking at holding the meeting here at 290 Bway between October 14 and 31- probably on a Wednesday or Thursday. Please let me know if you and whoever else at RACER is interested in attending and what dates work for you.

Subject: Ley Creek question

Hi Lauren: Hope you're doing well. Did Region 2 ever look into the ownership of Ley Creek? RACER is wondering whether the Creek bottom and banks might be owned in trust by the local government or NY State. We are looking into this because of our need for access to the Creek as part of the next remediation phase there. Thanks. --Carl
